

Tagset for the constituency annotation of **Cast3LB** corpus

Here comes the description of the tagset used in the annotation of Cast3LB. For a more detailed information, please, refer to the annotation guidelines:

Civit, M. (2004) Guía para la anotación sintáctica de Cast3LB: un corpus del español con anotación sintáctica, semántica y pragmática

<http://clic.fil.ub.es/personal/civit/publicacions.html>

Warning! Discontinuity in the constituent annotation is a bit different from what the guidelines state. There is no mention in the guidelines about the .1n and .1c suffixes (there is only mention about .1 suffix). .1n stands for the head, and .1c for the modifier.
